ABOUT US

Healthcare Conferences UK (HCUK) organises and produces high-quality healthcare conferences and exhibitions, with a specialist focus on clinical audiences. Our events are designed to support knowledge sharing and professional development, taking a highly practical, case-study-led approach to learning and the sharing of best practice. We are passionate about improving quality and patient outcomes across the NHS, and this ethos underpins everything we do, from programme development and speaker selection through to delegate experience and post-event impact.

The benefits of working with us, and what we bring to conferences

By working with HCUK, clients benefit from deep sector expertise, proven delivery at scale, and a partner who understands both the clinical context and the practical realities of running successful healthcare events. We combine high-quality content with strong marketing reach, robust operational delivery and a clear focus on outcomes.

Our experience

We deliver over 600 CPD-certified events each year, attracting between 25 and 600 delegates per event. As the largest independent organiser of healthcare conferences in the UK, we bring extensive market knowledge and a strong understanding of what engages healthcare professionals.

Around 90% of our events are researched and produced in-house, ensuring content that is current, relevant and credible. Alongside this, we work with a range of organisations on an event management basis, providing flexible support from full end-to-end delivery through to specific services. In the last year alone, we have supported the learning and development of over 10,000 health, social care and education professionals.

Our portfolio includes everything from small masterclasses and in-house training events to large-scale, multi-stream conferences with workshops, evening networking events and independent exhibitions. We deliver virtual, in-person and hybrid events of all sizes and formats.

Our organisation

HCUK is part of the HCUK Group. The group has three Directors, all of whom are owners and actively involved in the business: Clare Gallagher (Managing Director), Kerry Tarrant (Marketing Director) and Peter Gallagher (Finance Director). The company was founded in July 2011 and currently has an annual turnover of just over £2.4 million.

We operate as a virtual company, enabling us to keep costs efficient while maintaining a highly professional experience for delegates, speakers and exhibitors. This model is not apparent externally and does not compromise quality or service. We currently employ 26 experienced and fully trained staff, and we place a strong emphasis on supporting and developing our team, who are passionate about the organisation and our mission.

Our reach and marketing capability

Our website hosts the largest number of independently organised healthcare conferences in the UK and attracts high levels of web traffic, supported by strong Google rankings. Searches for our events typically place us within the top three results.

We maintain an active news page that supports ongoing engagement and search visibility, alongside a strong social media presence, including over 12,200 followers on X (@HCUK_Clare).

We also manage an in-house database of over 220,000 delegate and exhibitor records, fully coded by professional interest. This is supplemented by preferential data rates with external data suppliers, allowing us to extend reach in specialist areas where required.

Our website www.healthcareconferencesuk.co.uk

WE ARE AN AWARD WINNING CONFERENCE ORGANISER

Healthcare Conferences UK Ltd have won and been nominated for a number of awards demonstrating good practice in this area including;

- Healthcare Conferences were awarded Best Healthcare Conference Organiser 2025 from ghp Healthcare and Pharmaceutical Awards
- Healthcare Conferences UK were finalists in SME National Business Awards 2024 for Positive Impact Award and Best Enterprising Business. Clare Gallagher was also in the final for Business Woman of the Year.
- Clare Gallagher won the Silver Winner award for Business Woman of the Year at the SME Surrey Business Awards 2023, we were also finalists for Healthcare Conferences - Business of the year less than 50 employees, Education Conferences – Best New Business
- Clare Gallagher won the Silver Award for Business Woman of the Year – Small Business - Clare Gallagher – Healthcare Conferences UK Ltd & Education Conferences UK at the National Business Woman's Awards
- HCUK reached the final of the National Business Woman's Awards, Business Owner/s of the Year - Clare Gallagher and Kerry Tarrant – Healthcare Conferences UK Ltd & Education Conferences UK
- Healthcare Conferences UK was awarded Best Healthcare Conference & CPD Provider 2023 - UK at the in the Healthcare and Pharmaceutical Awards 2023.
- Finalists in 3 categories for the 2023 National SME Business Awards, Business of the Year less than 50 Employees – for Healthcare Conferences UK; Best New Business – for Education Conferences UK and Business Women of the Year – Clare Gallagher.
- Healthcare Conferences UK announced as a finalist for Events Company of the Year at Conference and Events Awards 2023
- Shortlisted in 3 categories for the Great British Business Awards 2023, SME of the Year – Healthcare Conferences UK; New Start up of the Year – Education Conferences UK; Female Entrepreneur of the Year - Clare Gallagher, Managing Director
- Finalist in the Conference and Events Awards in the category of Event of the Year. This was for our work with NHS Practitioner Health - International Practitioner Health Summit 2022: The Wounded Healer - Hope and Healing beyond Covid-19.
- Finalist in the AEO Excellence Awards 2022 in the category Best Conference 2022. This was for our work with NHS Practitioner Health - International Practitioner Health Summit 2022: The Wounded Healer - Hope and Healing beyond Covid-19.
- Finalists for Team of the Year at the M&IT Awards 2022. Our entry said "the whole team has demonstrated great resilience and flexibility to working in new ways and coping with increased demand, and sensitivity, working with NHS practitioners facing tremendous challenges. At our biggest hybrid event to date, which focused on the mental health and wellbeing of health practitioners, our team were praised for their calm, professionalism, the client was keen for the conference to have a happy, positive vibe, and our team met that expectation with great enthusiasm."

- Finalist in the Thames Valley Business & Community Awards for SME of the Year 2021
- Winner in the 2021 SME National Business Awards for Business of the Year less than 50 Employees
- Winner in the 2021 SME National Business Awards for Business Women of the Year: Clare Gallagher
- Winner of the Global Business Award for Outstanding Healthcare CPD Event Organiser 2021
Finalist in the UK Business of the Year Category (less than 50 employees) at the Brilliance Awards - As finalists in the 2021 Brilliance Awards Judges agreed that: *"the entry displayed a very comprehensive strategy and approach, very customer-centric and many innovative ideas for example engaging the patients to attend the conferences. As a small-size organisation, it is commendable that they have shown a capacity to be flexible and highly adaptable during the Covid-19 pandemic, by swiftly providing successful online conferences and remaining profitable. It is also great that wellbeing of employees is seriously considered, which decreases employee turnover. The impact that they make on patient care is clearly in the focus of their business. Overall, what a brilliant entry!"*
- Finalist in the 2020 Association of British Professional Conference Organisers (ABPCO) Award for Best Conference by an In House Conference Organiser for our work on our own Prehabilitation Conference
- Winner in the SME Southern Enterprise Awards 2020 for Best Healthcare CPD Event Organiser
- Winner of the Association of British Professional Conference Organisers (ABPCO) 2019 Award for Best Conference by an Agency Conference Organiser for our work on the Wounded Healer Conference in Association with the NHS Practitioner Health.

WE MAKE A DIFFERENCE

For every event we deliver – whether virtual or in person – we ask all delegates to complete a post-event evaluation. This enables us to measure the real-world impact of our conferences on professional practice, service delivery and patient care, as well as the value of networking and shared learning.

Our feedback consistently demonstrates high levels of satisfaction and impact. In 2025, **96% of delegates said they would recommend our conferences to a colleague**, building on similarly strong results in 2023 and 2024, when **95%** said the same.

We also ask delegates whether attending the conference is likely to have a positive impact on patient experience and outcomes. In both 2024 and 2025, **88% of delegates said yes**, with a further 11% saying maybe, indicating strong confidence in the practical value of our events.

We collect feedback using digital evaluation tools, sharing surveys via Zoom chat for virtual events, QR codes at in-person events, and post-event follow-up emails. This approach provides immediate insights while reducing paper use and supporting our commitment to sustainability.

Selected delegate quotes from our own events, reflecting these responses, are included below.

“Absolutely fantastic with so much information. I am pleased that we will be sent the information so I can share this with my colleagues. A lovely welcoming conference!”

“Really inspiring. A lot of ideas to take home and share with my work colleagues. Also increased my confidence in advancing my career.”

“A platinum standard conference. A conference embraced by authenticity, compassion and hope, delivered with reputable professionalism.”

“Very well organised with a clear agenda, access to supporting materials and a diverse way sharing the information.”

“Very professional and well put together. Thank you for having great speakers.”

“Fabulous range of well informed speakers with many valuable insights.”

“Very thorough in all the presentations and exactly what I was expecting and wanting to get out of the day.”

“A fantastic training session with lots of useful information. Extremely organised and well run. Great range of speakers and real life examples. Would definitely recommend this to others.”

“Without a doubt, one of the best conferences I have attended. Brilliant from start to finish”

“I loved it. It was insightful and interesting with a broad range of speakers. I learned so much!”

PUTTING THE PATIENT/SERVICE USER AT THE CENTRE

We believe in involving patients and service users in everything we do. Patients are regular speakers at our events, sharing their lived experience. We offer free places for patient and service users at all of our conferences. We have involved patients in the development of programmes and we have worked with organisations such as the National Service User Network (NSUN) to develop jointly produced conferences and programmes.

OUR KNOWLEDGE

We work predominantly in health and social care, which means we have a deep and practical understanding of the NHS, its constituent bodies, trusts, specialties and professional disciplines, as well as the wider organisations that support and work alongside it. Crucially, we also understand the issues, pressures and priorities that matter most to NHS staff.

This knowledge is built on extensive experience researching, planning, marketing and delivering events for clinicians and managers at every level of the system, from board directors and senior leaders to frontline staff and healthcare assistants. We have worked across a wide range of specialties including pharmacy, ambulatory care, anaesthesia, cardiology, elderly care, mental health, orthopaedics, paediatrics, palliative care, surgery, urology and many more.

Our long-standing immersion in the sector enables us to design events that are relevant, credible and genuinely useful to NHS audiences.

THE UNIQUE WAY WE WORK

We operate as a hybrid conference organiser, delivering both our own in-house researched conferences and bespoke events on behalf of clients. This sets us apart from many professional conference organisers. Because we originate and produce our own content, we are required to continually build and maintain a detailed understanding of NHS roles, structures and emerging issues. This ensures we stay up to date with policy developments, professional challenges and best practice, and brings a depth of insight to every client event we deliver.

OUR PEOPLE

We work as an integrated production team, bringing together specialist expertise to manage every aspect of your event.

Our team leaders are:

- Clare Gallagher, *Managing Director*, programme development
- Kerry Tarrant, *Marketing Director*, marketing and communications
- Joanna Milne, *Head of New Markets*, Education and Human Resources events
- Sarah-Jane O'Reilly, *Exhibition and Group Sales*, exhibition and sponsorship sales
- Stephanie Benton, *Speaker Team and Client Lead*, client and speaker liaison
- Jayne Duddy, *Conference Administrator*, delegate management
- Peter Gallagher, *Finance Director*, financial management

Clare Gallagher is the primary conference producer at HCUK and Founder of HCUK Ltd. She has over 25 years' experience in researching and writing conference programmes across health, social care and education. Clare is a member of the Association of British Professional Conference Organisers (ABPCO).

Clare has received multiple national awards, including the Silver Award for Business Woman of the Year – Small Business at the National Business Women's Awards, and the SME National Business Woman of the Year Award in December 2021. She was subsequently invited to serve as a Judge for the 2022 SME National Business Awards.

Alongside her work at HCUK, Clare has held a number of voluntary and advisory roles, including: Advisory Group Member at the National Postgraduate Education Training Board; Editorial Board Member for The Journal of Integrated Care Pathways and The Journal of Clinical Risk; Board Member of the European Pathway Association; Vice Chair of the PPI Board at Ashford and St Peter's NHS Foundation Trust; and External Consultant to Patient Concern. Clare holds a first-class degree in Health and Social Care Management, following her original degree in Economics. She is passionate about improving quality across the NHS and supporting the sharing of best practice through high-quality events.

CROSS SECTOR EVENTS

As well as healthcare we also have three other brands (Social Care Conferences, Care Home Conferences and Human Resources Conferences) as well as a sister company (Education Conferences). Should you work in partnership with us, events could be marketed and promoted through these where appropriate. We can use their separate websites and our growing database in these areas.

Our different brands have their own website which can be accessed here <https://www.hc-uk.org.uk/>

ACCREDITATION

All our events are CPD certified and our Conference Producers are members of the British Association for Professional Conference Organisers (ABPCO).

We are Cyber Essentials Approved which demonstrates we are continuously working to secure our IT against cyber-attack, offering our customers assurance that their data is secure.

QUALITY ASSURANCE AND THE HCUK QUALITY PROMISE

All our events are fully evaluated. A report is produced after each event which includes evaluations from the delegates and this report will be shared with you. We have a quality promise at HCUK – if any delegate rates the conference as less than average or makes negative comments within the questionnaire, even if they do not contact us independently, we offer them a free place at a future conference. Any complaints regarding our events are dealt with promptly and should the delegate not be happy with a free place at a future event a full refund including travel expenses incurred will be offered. We can offer this quality promise due to the high quality of events, and the low level of complaints we receive. As a partner with us you would be expected to sign up to this same quality promise.

CHOSEN CHARITY PARTNER

Healthcare Conferences UK is delighted to announce that we have allocated Cavell as our chosen charity. Cavell is the charity supporting UK nursing and midwifery professionals when they are personally going through tough times, because they are always there for all of us in our time of need.

“Being here for nursing and midwifery professionals is what Cavell does best, but we couldn’t do it without the generous support of our partners and fundraisers. We are honoured to be the chosen charity of Healthcare Conferences UK, who are giving back to the very workforce they deliver extensive and expert healthcare and social care conferences to. Together we can have a positive impact for the nursing and midwifery professions.”

Lewis Allett, Chief Executive, Cavell

Cavell makes a profound difference in the lives of nurses and midwives during their most challenging moments. As they navigate challenges in the workplace such as staffing shortages and burnout, many also face personal and financial hardship often due to illness, disability, domestic abuse and more. The work of the Cavell charity is a lifeline during these times, providing essential financial, emotional and holistic support.

For full details visit our website [here](https://www.healthcareconferencesuk.co.uk)

VIRTUAL CONFERENCES

For our virtual conferences we prefer to use Zoom as that is the most accessible to the NHS (Microsoft Teams is also acceptable). We are running an average of 15-20 virtual conferences a month (over HCUK & EDUK) which are supported by landing pages and resources on a password protected area of our website.

The landing page includes

- Password protected page
- Logo on home screen
- Areas for the programme with supporting photos, biographies and PowerPoint slides
- Areas for pre-recorded video content
- CPD and online evaluation
- Exhibition area where exhibitors can provide logos, outline and pre-recorded videos

Our Zoom virtual conferencing package includes

- A dedicated HCUK member of staff in each stream along with a support person to help with slide sharing if required by speakers
- Training for chairs, and speakers on Zoom
- Live streaming and pre-recorded presentations
- Panel discussions
- Breakout rooms (which can be random or pre allocated) - no limit on numbers and speaker green rooms
- Virtual networking during comfort breaks via breakout rooms
- Exhibition breakout rooms
- Polls which can be used for live audience voting
- Questions and answers
- Spotlighting of speakers
- Client branding is possible through a Zoom account with client logo
- Recordings of all presentations which can be available within 2 days
- Online delegate evaluation and reporting

THE TYPES OF EVENTS WE RUN

Conferences

The majority of our business is conferences (both virtual and onsite/in person). These range from large two-day multi-stream conferences for up to 600 delegates to mini conferences with around with a minimum of 25 delegates. Conferences usually consist of a series of speakers combining national updates with practical case study examples. These can be held in person, virtually or in a hybrid format. Our website provides details of our current conferences which can be viewed [here](#).

Webinars

Webinars are an educational virtual event which is attended exclusively by an online audience with usually one or two facilitator/s and are shorter than a conference, normally three to four hours. These events are usually run free for delegates with a smaller event management fee. We have run these for Wesleyan, Solventum (formally 3M Healthcare), 10to8 as well as running the Clinical Auditorium events with Clinical Audit Support Centre where we have had 250+ attendees.

Masterclasses

Masterclasses are generally delivered with a partner organisation. HCUK provides all the logistics, administration, marketing and onsite support. The partner organisation provides a content brief and delivers the training on the day. These events are generally delivered on a profit share basis. Our website provides details of our current masterclasses, view [here](#). Our partners include InPractice and Carolyn Cleveland (an NHS Framework approved trainer), Facere Melius (the only approved trainer in a specific area), Clinical Audit Support Centre (CASC), The Athena Programme, the former Chair of the UK Council of Caldicott Guardians, Payout Ltd, Solicitors, The Child and Family Partnership, Independent Clinical Leads and many other expert practitioners in their field.

In House Training

HCUK in association with partner organisations can bring CPD accredited masterclasses and training into organisations. In house training is delivered by a partner organisation within the NHS Trust, Council or place of work. In house training is cost effective for organisations saving travel time and costs for each member or staff. HCUK generally provide all logistical and marketing support for these events, we coordinate with the trainer who delivers the training on the day. Details of our current in house events are available at [here](#).

E-Learning

We are pleased to offer a catalogue of e-learning CPD accredited courses allowing delegates to study at their own pace from the comfort of their workplace or home. Our events support knowledge sharing, professional development and take a practical approach to learning through case study based best practice. Our e-learning courses are provided via our Learning Management Systems (LMS).

How does e-Learning work?

- You'll be emailed log-in details and a link to our online platform
- Work through the course at your own pace
- Complete the self-study assessments along the way
- Download your certificate of completion upon passing the course
- With 12 months access you can revisit as many times as you like to refresh your newly gained skills and knowledge
- CPD: Certified by the CPD Certification Service you will be emailed a framework for reflection pre-event and a certificate post event.

Awards Ceremonies, Roadshows, Evening Functions, Product Launches

HCUK have organised award ceremonies, evening functions and product launches. Further information on case histories is available on request.

The elements of a successful event

Our full event management package includes the following:

- Programme development and accreditation
- Delegate booking and management (including hosting on website)
- Venue management and logistics - or virtual conference management
- Speaker management and liaison
- Brochure design
- Marketing including marketing to the HCUK database and social media
- Exhibition and sponsorship sales and organisation
- Ad hoc administration
- Onsite management
- Financial underwriting and payment of suppliers

CLIENT TESTIMONIALS

Cavell Charity

The Cavell Charity became our charity partner in January 2025. We supported them with a free webinar which had 120 delegates. We are also working on an international nurses conference and a webinar series for 2026.

"HCUK's professional and values-led approach to learning and wellbeing makes them a trusted partner for Cavell, and one that truly understands the pressures facing today's nursing and midwifery workforce."

In 2025, the HCUK team helped us facilitate a webinar for leaders of nursing and midwifery teams to champion their staff wellbeing. The event brought together expert speakers from nursing and midwifery leadership and others with support services and training experience.

The Cavell team is looking forward to collaborating again with HCUK in 2026. Cavell's Internationally Educated Nurses and Midwives online conference will bring together nurses and midwives from the global majority working in the UK today and examine the challenges, pressures and highlights they face to better understand and improve staff wellbeing.

The HCUK team will also be working with Cavell to help create a series of webinars for nursing and midwifery staff giving guidance on wellbeing relating to the use of technology in the workplace."

Lewis Allett, Chief Executive, Cavell.

SAS Conference for NHS England South West, March 2025

"Organising a conference for SAS doctors in the Southwest was made easy by having the support and expertise of Steph and her team. Before the Conference date, she made sure that we were moving the planning forward and helped us to produce the best possible programme. She liaised with the Speakers which meant that they all have the required information about the event.

On the day, the team was efficient polite and really helpful. The feedback from the day has been positive, a large part of that being the efficient organisation of Steph and team helping to produce a relaxed unstressed atmosphere for the faculty as well as the attendees."

Katherine Finucane, Associate Dean for SAS Doctors, NHS England South West

Equality, Diversity & Inclusion and International Medical Graduates Conferences for NHS England South West, 2024 & 2025

"Steph from HC-UK had supported our Equality, Diversity & Inclusion and International Medical Graduates conferences on a few occasions. She is simply a natural organiser. She and her team are very knowledgeable, experienced and efficient. Every conference is always very well planned from all aspects e.g. initial support with the programme planning, providing useful ideas if needed, publishing the conference on their webpage well on time, liaising with speakers, registering participants, arranging venue and catering, greet & meet and technical support on the day, collecting feedback after the event and many more. Steph has the ability to keep track of all the details very efficiently to ensure the timeline is met and everything runs very smoothly on the day."

Eng Kwee Ong, Associate Dean ED&I (Workforce, Training & Education), NHS England South West
Consultant Urologist & Appraisal Lead, Royal Devon Northern Services
Director of Surgical Examination, Royal College of Physicians & Surgeons of Glasgow

AMR Action UK (formerly Antibiotic Research UK)

After working with Antibiotic Research UK on their virtual annual meeting in 2023, we worked together again in 2024 & 2025 on their Living with Chronic and Complex UTIs conference which was a hybrid event being held in London and online. The event had 100 onsite delegates with 130 virtual.

"We were privileged to work with Healthcare Conferences UK (HCUK) for the organisation of our conference held at Wellcome Trust on March 21, 2024. From the initial planning stages to the execution of the event, HCUK demonstrated unparalleled professionalism, expertise, and dedication.

Their attention to detail and understanding of our objectives ensured that the conference was well planned and executed. From a compelling conference program to managing delegate registrations and coordinating with speakers, HCUK handled every aspect of the event with precision and efficiency.

The team's commitment to excellence was evident in their proactive approach to problem-solving and their ability to anticipate and address any challenges that arose during the planning process and on the day of the event. Their seamless coordination ensured that the conference ran smoothly from start to finish, allowing us to focus on engaging with attendees and delivering impactful presentations.

Not only did HCUK deliver on all aspects of event management, but they also went above and beyond to create a collaborative and inclusive atmosphere that fostered meaningful discussions and networking opportunities. Their dedication to creating a positive experience for all attendees was evident in every interaction and aspect of the conference.

Working with HCUK was instrumental to the success of our conference, and we are incredibly grateful for their expertise, professionalism, and unwavering support. We would not hesitate to recommend HCUK to organisations seeking a trusted partner for conference organisation, and we look forward to the opportunity to work with them again in the future."

Jonathan Pearce, CEO, Antibiotic Research UK

The British Association of Day Surgery (BADS)

We work with BADS on a number of specialised virtual conferences in areas such as day case knee, hip, breast, gynaecology and emergency surgery.

"The British Association of Day Surgery (BADS) has been working with HCUK for a number of years to develop and deliver an annual rolling programme of one-day conferences, each focussing on a specific area of day surgery. The team at HCUK continue to provide exceptionally valuable support. Their insight and ideas have helped to optimise engagement in these events, and they have used their expertise to provide flawless organisation throughout the entire event management process, from scheduling to feedback and everything in between."

Mr Dave Bunting President, British Association of Day Surgery (BADS)

Consultant Upper Gastrointestinal Surgeon, Royal Devon University Healthcare NHS Foundation Trust

The Caldicott Guardian National Annual Conference

The UK Caldicott Guardian Council sponsored and worked with us on the programme for our Caldicott Guardian National Annual Conference in 2023-2025.

"We recently worked with Healthcare Conferences UK for our annual Caldicott Guardian conference and highly rate the experience. The day ran seamlessly, thanks to HC-UK's careful planning and execution. The technical support was of a high standard, ensuring everything went smoothly for both in-person and virtual speakers/attendees. HC-UK's support before and during the event was outstanding; a particularly big thanks to Steph in the lead-up to the event and Kate on the day. We recommend HC-UK for their professionalism and careful attention to detail, they helped to make our conference a memorable success."

Dr Arjun Dhillon, UKCGC Chair

UK Digital Health and Care UKDHC (2024 & 2025) and the Faculty of Clinical Informatics FCI (2020-2022)

These events were all delivered virtually, the 1st FCI Scientific Conference was due to be an onsite Conference but transitioned to virtual during the COVID pandemic with over 300 delegates. FCI were so pleased with the virtual event that they asked HC-UK to also run their AGM, with over 200 delegates again virtually. We continued to run these events from 2021 to 2022. After the FCI closed down in 2024, we were pleased to be working with Prof Wallace again on the UK Digital Health & Care (UKDHC) conference in September 2024 and October 2025.

"Clare and her HC-UK team provided us with a fantastic 1st one-day Virtual Inaugural Scientific Conference for the UK Faculty of Clinical Informatics in October 2020 against all the odds. We started planning a conventional Conference in September 2019 scheduled for May 2020. Because of COVID-19 we converted it completely to a Virtual Conference with a Main Auditorium for the plenary sessions, two separate Lecture Theatres for the Instructional Courses plus a Ready Room for the preparation of the speakers and multiple Exhibitors rooms. Despite only a 2-week setting up period the whole Conference worked superbly with all attendees and exhibitors happy. Although we missed out on the personal contact element, the Conference was still a huge success, with all sessions now recorded for posterity. Because of this success I invited them to run the FCI 2021 and 2022 Conferences virtually and these were equally successful.

In April 2024 we set up UK Digital Health and Care CIC to fill the gap left when the FCI closed down and again I invited HC-UK to be the Conference Organiser for our September 2024 Virtual Scientific Conference.

I can highly recommend HC-UK, particularly for their very professional ability to design Virtual Conferences, and I look forward to working with them again in the future."

Prof W Angus Wallace, Executive Director, UK Digital Health and Care.

NHS Practitioner Health International Practitioner Health Summit

We first worked with NHS Practitioner Health in 2018 to develop this award winning conference aimed at improving mental health and wellbeing for health practitioners, at the conference Simon Stevens, Chief Executive, NHS England announced funding to expand the NHS Practitioner Health nationally. We then ran this event again in March 2022 and June 2024 which were both hybrid events with 250 delegates, 5 breakout sessions and 50+ online delegates.

"Thank you so much for your faultless organisation, efficiency and coordination of this hybrid event. We really appreciate how you have worked with us at every stage from planning, sifting abstracts, liaison with presenters and speakers, overseeing venue and online access and dealing with every request or query in such a calm and responsive way. Your staff are fabulous and unflappable, your experience and knowledge in managing events such as these is second to none and we are really grateful for your guidance in steering us through to what one delegate described as 'the best conference they had attended in their entire career'. Thank you and look forward to our next event working together!" 2022 Conference

Lucy Warner, CEO, NHS Practitioner Health

"I can't praise HCUK enough for the organisation of our International Physician Health Summit. The HCUK team were all friendly, calm, knowledgeable and efficient from programme development and venue booking through to onsite management. Experienced, dedicated and professional staff were accommodating throughout seeing to all our requests. Their marketing activities resulted in a fully booked conference with over 350 high quality target delegates. The event ran extremely smoothly over two days, with multiple breakout streams and high profile speakers. I highly recommend them and look forward to working with them again in future." 2018 Conference

Dame Clare Gerada MBE, Medical Director, PHP; National Medical Director, GPH; and past Chair, the Royal College of General Practitioners

AMaT

We run AMaT's annual conference from 2022-2024, which was an onsite only event in Manchester with 100-150 delegates each year.

"HCUK immediately understood that AMaT is more than a system – it's a community. They knew exactly how to help us deliver a major annual conference built around the needs of that community. Their contacts within healthcare, their attention to detail, and their consideration of our long-term goals, enabled AMaT to run a high quality, in-person national event which has been a great success year-on-year. From planning to follow-up, the team have been invaluable."

Don Conlon, Program Coordinator, AMaT

BSCOS Annual Meeting March 2022 (British Society for Children's Orthopaedic Surgery)

We took over the event management of this 2 day conference two and half months before the event date, we assisted with the hybrid element of the event arranging the AV as well as selling exhibitors. The event had over 250 delegates attend live along with 45+ virtual delegates.

"I would like to thank HCUK for stepping in at short notice and helping to produce such an excellent conference. Their contribution was invaluable and resulted in a fantastic event. They were always attentive to the needs of the organisers, speakers and delegates and ensured smooth running of all aspects of the conference. Thoroughly recommended and should I have to do this again HCUK would be my 1st port of call"

Marcos Katchburian, Consultant Orthopaedic Surgeon, Maidstone & Tunbridge Wells NHS Trust

South West Multi-Professional Educational Conference 2022

This was a 1 day hybrid event with 200 onsite delegates and 200 virtual delegates. The onsite event had 10 different workshops for delegates to choose and attend on the day with 3 of these streamed to the virtual delegates plus a fully virtual workshop for those attending online.

"Clare, Stephanie and her team are efficient and extremely knowledgeable in running quality, educational healthcare events.

Throughout the process, from our initial meetings, to the event itself, and post event work, feedback, evaluation and de-brief, they made a highly complex process very straightforward.

Our first South West Multi-Professional Hybrid Educational Conference was a real success, re-connecting our educators across various settings, coming together to share practice and learn from others for a better tomorrow in healthcare practice and education.

The team understood the challenges faced and helped co-design and support our event. I cannot recommend HC-UK enough to organisations with an event idea in mind, and we at HEE-SW will continue to partner with them to deliver future events."

Dr Jane Thurlow, Associate Dean, Professional Education & Development SW Lead
Health Education England South West

PRE PURCHASE GROUP CLIENT TESTIMONIALS

We offer an advance purchase scheme for NHS trusts or other organisations to purchase conference places in bulk at a discounted rate and invoiced together. Full details are [here](#).

“Bedfordshire Hospitals NHS Foundation Trust have been using the Healthcare conferences pre-paid token scheme for a number of years now.

It allows our staff to look freely at their easy to use website and find courses appropriate to them and their team and make the booking very easily following our internal procedure and using the token code to book.

The process is seamless and the team at Healthcare conferences are always on hand to help should the need arise. This scheme also allows us to provide more training at a discounted rate which is beneficial to all.”

Leanne Golder, CPD and Training Manager, Bedfordshire Hospitals NHS Foundation Trust

“As one of Healthcare Conferences' clients, I'm delighted to provide a testimonial for their scheme. Our collaborative working has been instrumental in enabling registered nursing associate, nurse, midwife, and allied health professionals access to CPD-certified conferences and masterclasses, all underpinned by national policy, law, evidence-based research updates, and best practice.

The pre-purchase scheme has delivered substantial savings, allowing us to allocate CPD resources more efficiently. Beyond the financial advantages, the streamlining of admin and procurement processes has freed up valuable time, reducing administrative burdens. Furthermore, their monitoring capabilities are instrumental in effectively tracking and managing our team's continuous professional development.”

Mandie Garner, Learning and Organisational Development Manager, Mersey and West Lancashire Teaching Hospitals NHS Trust

PATIENT TESTIMONIALS

Paul Scates, *Person with Lived Experience of Personality Disorder & LGBT+ Representative*

"As a person with lived experience of mental health inpatient settings I do my best to work with the team to ensure that all training delivered has the person at the heart of training. I have worked with Healthcare Conferences UK and co-produced conferences and training with them for many years, on often challenging subjects such as Sexual Assault in Mental Health Services, and I have no hesitation in recommending Healthcare Conferences UK."

Paul lives with Bipolar type II and it has historically crippled him for extended periods of his adult life. Bipolarity presents itself after a traumatic experience and for Paul that was at a very early age due to experiencing many years of sexual abuse by a 'supposed' friend of the family. More recently Paul has been training to become a professional counsellor to enhance his current one to one therapeutic practice.

Elaine Coote, *Lived Experience inpatient Perinatal Treatment*

"In the many years they have known me, I have always felt valued and appreciated by HCUK and recognized as a crucial part relevant professional events and training they provide. Delegates comment on how much they learn from the high quality events."

Originally a teacher for children with severe learning difficulties, she resigned to dedicate herself to the field of perinatal mental health. Her first book, 'Eyes without sparkle – a journey through postnatal illness' describes the story of her spiral into and out of postnatal depression and psychosis including inpatient treatment following the birth of her son.

James Downs, *Young Adult with Lived Experience of inpatient mental health treatment, eating disorders, autism and severe mental illness*

"My work as an expert by experience in the field of mental health has included extensive involvement in the co-creation of training, from writing curricula to delivering and evaluating the efficacy of a range of training programmes for healthcare professionals and managerial staff. I have worked across a number of organisations including the Royal College of Psychiatrists, NHS England, Mind, Samaritans, and universities such as UCL and Kings College London, striving to embed the principles of coproduction in order to make the impact of training programmes more effectively meet the needs of those with lived experience - especially underrepresented and diverse patient groups. Particular areas of interest of mine include eating disorders, serious mental illness, co-occurring conditions and disability, safeguarding, and equity, diversity and inclusion - amongst others. Having been involved with Healthcare Conferences UK as a leading training provider for many years, I would be privileged to bring my skills and expertise in co-production to their already well-established track record of embedding lived experience at the heart of training programmes."

Louise Gallie *Patient Advocate, Blog Writer and Volunteer, University Hospitals*

Plymouth, Lou speaks for us on her journey through deterioration

"Since I first started working with Healthcare Conferences UK, they have been a dream to work with. Public speaking is still very new to me and something I took up by chance after a period of critical illness and rehabilitation. I speak as a patient of experience, about my journey through Intensive and beyond, about my experience of severe ICU Delirium and other subjects such as patient deterioration, patient partnerships and patient safety. I have a growing knowledge of patient experience work, patient rehabilitation other areas, using expertise from my personal experiences and volunteering within the NHS."

I feel very honoured that they have confidence in me to deliver an insightful and informative presentation, which engages the audience and gives them many tools to take away from their respective event. The HCUK team have been incredibly supportive, patient and understanding and is always on hand should I need advice or guidance."

Lived experience is a hugely valuable learning tool and I look forward to continuing my work with HCUK."

TESTIMONIALS FROM DELEGATES

We would be happy to share questionnaire results with you from any of our events. We have 1000's of positive testimonials, we particularly like this one as it fits with our ethos & values of improving patient care.

"I just wanted to say thank you for another excellent conference that you and the team have hosted at de Vere West One in London. I was lucky enough to be able to attend the day on PROMS last week and it was truly excellent. Every meeting of yours I have been to has been so well put together and very well run, with all anyone could hope for in terms of communication, preparation and course materials on the day and afterwards. The on the ground team are great and the catering services terrific. As a 'lay' person I feel very privileged to be able to be allowed a free place, which contributes to a feeling that comes across strongly which is that HC-UK wants to contribute to actually making things better for patients and families rather than just running courses or conferences. So I wanted to say that I think you and the team are genuinely making a difference to the care people receive and to thank you for doing so.
With best and festive wishes, Mary Ryan"

"I have attended several HC-UK events, both as an attendee and speaker, and think that the organisers have developed a very good product which helps meet CPD needs and supports networking. The conferences cover a wide range of topics relevant to contemporary healthcare issues in the UK and beyond. In my experience the organisers are very receptive to suggestions and welcome contributions from a range of perspectives. I have found events to be well-chaired and well-managed behind the scenes, providing genuine learning opportunities. Participants are enabled and encouraged to contribute on the day. Putting on a successful conference, whether in-person or online, is fraught with potential difficulties but I think HC-UK have found a winning formula. Hugh Wilkins"
